This action is in response to the amendment filed 1/27/06.

***Drawings***

1. The drawings were received on 1/27/06. These drawings are acceptable.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 13-26 are canceled.

Claims 13-26 are toward a non-elected invention, the election being made without traverse in the paper filed 2/28/05.

***Reasons for Allowance***

3. Claims 1-2, 4, 7-8, and 10 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Art Unit: 2813

Claim 1 contains the limitation where first and second insulating films are formed in a plasma where the hydrogen content in the plasma is not more than 1%, and the second insulating layer is planarized to expose portions of the first insulating layer and then a third insulating film is formed (also in a plasma of not more than 1% hydrogen) on the exposed first film prior to forming contacts through the first and third film. Katsumi JP 11-074472) does not teach planarization. Wolf (pages 435 and 273-275) does teach planarization of the passivation layer, but does not teach forming an additional passivation layer on the first layer after planarization and before forming contacts. Yasuyuki (JP 2001-035844) teaches forming a first insulating layer without any hydrogen in the plasma, but the second insulating layer is formed from silane and has no disclosed limitation on the hydrogen content in the atmosphere. Yasuyuki also does not teach planarizing the second layer to expose portions of the first layer.

Claims 2, 4, 7-8, and 10 are allowed as being properly dependent upon allowed claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
